Dear Peter

I wish to convey my congratulations to you and your partners on the establishment of Eyre Advisory Services (EAS).

I have provided some commentary below on my working relationship with the Flinders Power team during the closure of Flinders operations at Port Augusta and Leigh Creek. I am happy for you to share these comments with future business partners and clients.

Having been closely involved in monitoring compliance with its obligations at Port Augusta and Leigh Creek, I am of the view that the closure of the Flinders Power business was conducted with professionalism, integrity and careful planning. The Flinders Power team have a pragmatic approach to solving problems and is methodical in its planning and execution of works.

The team's engagement with government and stakeholders was ongoing and constructive throughout the closure process, with any concerns or issues raised by Generation Lessor Corporation being taken on board by the team and resolved to the satisfaction of both parties.

It was also clear from the outset of the closure process that the wellbeing of staff during and after the closure of its business was of paramount concern to the Flinders Power team.

I would be happy to speak to any prospective business partners or clients and wish you and the other partners at EAS all the best with the new business.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'John Strawbridge'.

John Strawbridge
